

## Hill-Rom® Tempur-Pedic® Comfort Story

**Tempur-Pedic's sleep-science technology is designed to improve your patients' sleep, health and lives.**

TEMPUR® Material products deliver a relaxing, rejuvenating quality of sleep, providing an experience unlike any other. TEMPUR® Material uses the body's heat and weight to reorganize its molecular makeup.

A Tempur-Pedic® Medical Mattress automatically contours precisely to the individual body's every curve and angle. The spine's natural, double-S shape is not "forced" forward, backward or sideways in any direction.

This assures relaxation of the spine, providing deeper sleep, which is essential for the body's regeneration and wellness.

The entire musculoskeletal system is supported and stabilized – reducing pressure points, eliminating pain, increasing REM cycles and ensuring deep, restorative sleep.

More than nine out of every 10 of Tempur-Pedic® bed owners rave about pain relief, undisturbed sleep, superior comfort or simply waking up feeling better on their Tempur-Pedic® beds

### Give your patients a BETTER NIGHT'S SLEEP!

Consumers love their Tempur-Pedic® at home...

- 94% of our owners tell us their Tempur-Pedic® bed is one of the most vital investments they've made
- 92% report sleeping better and waking more refreshed

SOURCE: Owner survey conducted by AOT, Inc., 2003.

...and your patients will too:

- 67% of patients said their bed makes them feel like the hospital cares about them
- Positive comments about the mattress outnumbered negative comments 8.5 to 1 (222 positive comments, 26 negative comments and 42 neutral comments)

SOURCE: Study at a major tertiary hospital in Nashville, conducted in 2005.
